Time to Build

ON-CHAIR

Pre-engineered designs that have been requested and built frequently

- Added to product order forms
- Built within standard product lead time

Now

Quote is generated immediately.

5 to 8 Days

Wheelchair is built within the standard manufacturing process and reviewed by Quality.

BUILD-READY

Pre-engineered designs that have been built previously or are considered straightforward requests

- Pre-designed and approved by Built-4-Me engineers
- Manufacturing process has been established
- Custom assembled

1 Day

Built-4-Me reviews request.

8 to 12 Days

Wheelchair modification is custom assembled by Built-4-Me team and reviewed by Quality.

SPECIALIZED

New requests similar to previously built designs (i.e., designs that have been built on a different wheelchair model)

- Custom designed by Built-4-Me engineers
- Manufacturing process must be established
- Custom assembled

2 to 4 Days

Built-4-Me engineers evaluate the modification and establish design concept.

10 to 14 Days

Build process is developed. Wheelchair modification is custom assembled by Built-4-Me team and reviewed by Quality.

UNIQUE

Entirely new or highly involved designs

- Custom designed by Built-4-Me engineers, with special consideration for unique requests
- Manufacturing process must be established
- Custom assembled

4 Days

Built-4-Me engineers evaluate the feasibility of the request and establish design concept.

14 to 18 Days

Build process is developed. Wheelchair modification is custom assembled by Built-4-Me team and reviewed by Quality.

built4me

Our Built-4-Me team is dedicated to creating product customizations beyond what is listed on our product order forms.

Our Built-4-Me team is dedicated to creating product customizations beyond what is listed on our product order forms.

From inception to reality, every design that goes through Built-4-Me is hand crafted to enhance your independence, individuality, and ride experience.

Built-4-Me products are:

- ✓ Custom designed by experienced Sunrise Medical engineers
- ✓ Hand built in the U.S.A. by experienced Sunrise Medical manufacturing professionals
- ✓ Examined for user safety
- ✓ Quality tested and approved before leaving our facility
